Your Horoscope

by Mecca Woods

ARIES (March 21 to April 19)

You may have an old idea that's worth revisiting. It could be profitable or, at the very least, enjoyable for you.

TAURUS (April 20 to May 20)

It's a good time to work on home improvements. It's also an opportune time to reconnect with family.

GEMINI (May 21 to June 20)

Communication issues or tech-related problems could throw a wrench into your plans. Try going with the flow or rescheduling for another day.

CANCER (June 21 to July 22)

You'll find the day useful for reviewing your budget or handling financial affairs. Check for accounting errors so that they can be corrected.

LEO (July 23 to Aug. 22)

Try to hold off on making important decisions because you may not have the clarity or information you need.

VIRGO (Aug. 23 to Sept. 22)

Your brain may be tired and in need of a break. Whatever you set out to do today, make sure it doesn't require much mental energy.

LIBRA (Sept. 23 to Oct. 22)

You may be moved to reconnect with an old friend. It can be good to catch up or make amends if needed.

SCORPIO (Oct. 23 to Nov. 21)

Consider ways that you can make a current plan better. Maybe it's time to go back to the drawing board.

SAGITTARIUS (Nov. 22 to Dec. 21)

If you want to avoid having your words misconstrued, think before you speak or share your opinions.

CAPRICORN (Dec. 22 to Jan. 19)

Your mind may be heavier than usual. Be careful of ruminating on things you can't control.

AQUARIUS (Jan. 20 to Feb. 18)

Don't be so quick to enter into an agreement. If you do, give yourself room to make changes as necessary. Watch out for misunderstandings.

PISCES (Feb. 19 to March 20)

Today is helpful for catching up on work or chores that need your attention.

FOR TODAY'S BIRTHDAY

You unselfishly give to others. However, it's important for you to know your boundaries so that you don't end up always being the giver in your relationships. You may feel like your best self when you're engaged in artistic work or hobbies. You have the kind of imagination that can turn good ideas into something great. You have a charming personality that makes it easy for you to win people's affection or adoration. This year may bring new people into your life who will support your personal and professional goals.

THE MORNING BITE ENVIRONMENTAL NUTRITION

Cukes are Cool!

True to their reputation, cucumbers are pretty cool.

The folklore

A favorite in summer gardens, cucumbers are made up of mostly water, which makes them literally “cool”-ing and hydrating in hot temperatures. They’re also “cool” in the popular sense. Cultivated around the world for more than 3,000 years, cucumbers have gained a following for their simple, raw, and often pickled appeal. It’s said

that the Romans used artificial methods to grow them out of season so that Emperor Tiberius could eat them every day of the year. Today, this native to India is the star in timelessly popular recipes like raita and tzatziki, and for its roles in well-loved pickled condiments like relishes and dips.

The facts

Cucumbers (*Cucumis sativus*) belong to the same family as melons and squash. Though we think of them as vegetables, cucumbers are technically fruits classified as either slicing cucumbers or pickling cucumbers. Slicing cukes are thick-skinned and eaten in their fresh form, while the pickling variety are smaller with thinner skins. While the most familiar cucumbers are long, with smooth, dark-green skin, there are hundreds of varieties of size, shape, and even color.

At 96% water, cucumbers are hydrating and very low calorie. A 1-cup serving has 16 calories and 20% DV (DV=Daily Value, based on 2,000 calories/day) of bone-building vitamin K.

The findings

Cucumbers contain many phytochemicals, biologically active compounds with health protective properties. Studies have linked those in cucumbers with antioxidant, anti-inflammatory, antimicrobial, anti-carcinogenic, and antidiabetic potential (Journal of Preventive Medicine and Hygiene, 2022). While promising, more research is needed. Fermenting cucumbers (which is a type of pickle), may further enhance its health benefits through the production of prebiotics, probiotics, symbiotic, and/or postbiotics, according to a study published in the journal Food Chemistry: X (2023).

The finer points

Fresh cucumbers are typically available year-round. They should be refrigerated in the market and at home, as they are heat sensitive. Choose those that are firm and evenly colored without wrinkling. Keep whole cucumbers in the refrigerator for several days, and if cut, in a sealed container. Enjoy cucumbers (with skin and seeds) in salads or dipped into dressings, diced into tuna salad, or pureed into a smoothie or cool gazpacho.

Let us guide you in choosing the right monument for your loved one...

- Monuments help families who have lost a loved one through the difficult transition period by providing them with a tangible link between the past, the present, and the future.
- Monuments can also tell the story of the deceased. You can have custom images put on the monument that can show what your loved one enjoyed, a glimpse into who they were.

- Monuments provide families a place where they can go, to reflect on the memories of their loved one, and on the moments they spent with them.
